Will suffrage leaders permit a requirement of declaration of age to shoo them from the ballot?

They will not!

This question was answered without hesitation today, when put to officers of the National Woman's Party.

News was flashed from London today that universal suffrage, as proposed in the House of Commons reform program, carries little cheer to the women of England, because they must be thirty years old before they can vote.

"Too foolish for comment," was the remark of Mrs. Robert W. Baker. "The men of this country are not going to let women be subject to an unreasonable age limit."

"Pshaw! Any woman will admit she's twenty-one, if she really is!"

Employees Must  
Keep Corns Off

Says they destroy efficiency but can be lifted right out now.

Many large retail establishments now insist that every employee have cornless feet, because one can not appear pleasant before a patron or be fully efficient when the brain is constantly reminded of these painful pests.

The simplest method known to get relief is to apply a few drops of freez-one directly upon the tender, aching corn, which promptly relieves the soreness and soon the entire corn, root and all, lifts right out without pain.

A quarter ounce of freez-one will cost very little at any drug store but is sufficient to remove every hard or soft corn or callus from one's feet. "This drug is gummy but dries in a moment and seems to just shrivel up the corn without inflaming or even irritating the surrounding tissue or skin. This should interest many men and women here."—Adv't.

McAdoo, Jr., a senior at Princeton University, has applied for assignment to the aviation corps of the reserves, while the third son, Robert H. Preparing For War

That a state of war between Germany and the United States actually exists now, is asserted by Vice-President Marshall, and his opinion is echoed by such eminent authorities as Charles E. Hughes, Elihu Root, and Theodore Roosevelt, while the preponderance of newspaper sentiment in the United States reflects the same conclusion.

"Our citizens have been murdered, our rights have been invaded, and treason has been plotted by German agents within our frontiers," notes the New York Tribune, and then asks "what are we going to do about it now?"

An official answer to that question will doubtless be given by President Wilson to Congress when it convenes on April 2d. At least this is the consensus of public opinion. Under these circumstances a knowledge of what preparations for war the United States plans and actually has under way is of absorbing interest to the American people.

It is to furnish this information that the article "A 'State of War' With Germany" in THE LITERARY DIGEST for March 31st, 1917, is presented. Man-power, money, food, submarines, submarine destroyers, aeroplanes, mobilization, coast defense, munitions, transportation, and many other topics are covered.

Read "The Digest" this week and judge to what extent the United States is ready for war.
